The cook is never satisfied unless her baking turns out well. Cooks who have tried it secure better and more uniform results from the use of Cottolene than with butter, lard or any other shortening.

Cakes, pies, cookies and doughnuts are best made with Cottolene. It makes rich food without being greasy. Cottolene food, too, is always digestible, because it contains no hog fat.

Try Cottolene—not a "just as good" imitation—on your next baking day. Costs less because you use less.
